- **Programming Languages:** JavaScript, Python
- **Version Control:** Git, GitHub
- **Web Fundamentals:** DOM Manipulation, REST APIs, Browser DevTools

Projects

E-Commerce Website

- Built a responsive e-commerce frontend with product listings and cart UI.
- Implemented clean layouts and mobile-first design using React and Tailwind CSS.

To-Do Application

- Developed a task management app with add, delete, and mark-complete features.
- Focused on React state management and component-based architecture.

Zerodha Clone

- Created a responsive frontend clone of Zerodha with accurate UI and layout structure.
- Used React components and modern CSS practices for consistency.

Lilamme – Auction Website

- Designed an auction-style frontend platform inspired by Lilamme bidding systems.
- Built interactive components for listings, bids, and user flows.

Personal Portfolio

- Designed and developed a personal portfolio to showcase projects and skills.
- Highlighted frontend expertise, responsive design, and clean UI presentation.

Achievements

- Completed **JavaScript, Python** Certification (ProgramizPro)
